Board of Directors Geary County, Kansas Rural Water District No. 4 Milford, Kansas 66514

We have audited the financial statements of Geary County Rural Water District No. 4, as of and for the years ended December 31, 2009 and 2008, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the Kansas Municipal Audit Guide. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion the financial statements present fairly, in all material respects, the financial position of Geary County Rural Water District No. 4, as of December 31, 2009 and 2008 and the results of operations and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on page 2 and budget report on page 11 are not required parts of basic financial statements but are supplementary information required by accounting principles generally accepted by the United States of America. We have applied certain limited procedures, which consisted primarily of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However we did not audit the information and express no opinion on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

During the year 2009, the main topic discussed by management and the board of directors was the completed search for a new source of water to eliminate or mitigate the arsenic in the water. A lease agreement for the land on which to place the new well was obtained from the Corp of Engineers and drilling will commence in 2010.

Little growth occurred this year with the sale of 8 new benefit units. The district continues to absorb the growth.

Compared to 2008, in 2009 there were few large projects completed by the district. The district continues to focus on improvement of current infrastructures.

The district maintained its growth and like prior years, income was received due to the new benefit units. Those monies are kept in a Capital Improvement account to assist with expenditures anticipated in the future.

The board discussed the drilling of a new well in 2009. This would accomplish two things; it would help with potential growth and eliminate the arsenic levels currently in violation due to the decrease in the amounts allowed by EPA. The district is currently in compliance due to changes in treatment of the water.

The filter has been operating satisfactorily this past year.

A budget was adopted by the board for 2009 and again, is a basic budget just to set guidelines for the District's expenditures.

Since the district does not adopt a budget except to set guidelines to follow, the budget was monitored to keep expenditures as close as possible to the budget. The biggest difference would be in the increase in revenue due to the additional benefit units.

There has been no changes made in the long term indebtedness of the district except for payments made to the bonds when due.

This financial report is designed to provide a general overview of the District's finances and demonstrate the District commitment to public accountability. If you have any question about this report or would like to request additional information, contact the District office at 8425 Quarry Road, Milford, KS 66514.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization Description

The Rural Water District No. 4, Geary County, Kansas, was declared incorporated as a quasi-municipal Corporation by the Board of Commissioners of Geary County, Kansas, in April of 1976. The District is located near Milford, Kansas and was organized pursuant to K.S.A. 89a-612 to provide water to its subscribers.

Basis of Accounting

The District's financial information is reported on the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America. The District performs proprietary activities and therefore is subject to all Governmental Accounting Standards Board (GASB) pronouncements as well as Financial Accounting Standards Board (FASB) statements and interpretations, and Accounting Principles Board (ABP) opinions that do not conflict with or contradict GASB pronouncements.

Cash and Cash Equivalents

All bank deposit accounts and money market accounts classified as current assets are determined to be cash and cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Capital Assets

Capital assets purchased are capitalized at cost. Depreciation is recorded based on the estimated useful life of each asset using the straight-line method.

Allowance for Doubtful Accounts

The District bills customers on a monthly basis. Invoices not paid by the 16th of the month incur a late fee. A notice to disconnect is sent if the invoice remains unpaid. As most customers pay before they are disconnected and there have been no amounts written off in the past three years, management has set the allowance account at zero.

NOTE 2 - DEPOSITORY SECURITY

K.S.A. 9-1402 requires the District to obtain security in the amount of one hundred percent of deposits in excess of FDIC or FSLIC insurance coverage prior to depositing any public monies in any state bank, national bank, or savings and loan institution. As of December 31, 2009, all deposits were adequately secured. Central National Bank has pledged securities in the District's name held by UMB Bank and Intrust Bank.

2009	\$1,988,479	(\$797,243)	\$14,523	(\$ -)	(\$64,669)	\$1,141,090

NOTE 5 - BUDGETS AND BUDGETARY ACCOUNTING

The District is not required to adopt a legal budget. Therefore, no budgetary comparison is prepared as a financial statement. The Board approves an estimated budget each year per K.S.A. 82a-628, which is used by management to internally monitor the District's expenditures and is presented as supplementary information.

Geary County, Kansas December 31, 2009

NOTE 6 - RETIREMENT PLAN

The District has adopted a SEP-IRA plan. The plan allows the District to make contributions into individual retirement arrangements on behalf of the employees. Contributions are made at the financial institution where the employee maintains his or her SEP account. As an IRA the employee is always fully vested in the account. Eligible employees have reached age 21, worked for the employer in at least three of the immediately preceding five years, and received at least \$500 in compensation. All eligible employees receive the same percentage contribution from the District up to a maximum of 25% of their wages up to \$49,000. For the year ended December 31, 2009 the total retirement expense was \$1,118 (3% plus fees).

NOTE 7 -- BONDS PAYABLE

In 1993 the District issued new bonds in the amount of \$580,000. The proceeds of this bond issue were used in part to retire the 1988 Series bonds. The balance of the bond proceeds were used to add to the water system and construct a new water tower and provide office improvements.

On April 15, 2003, the district issued \$365,000 in Kansas Rural Water Finance Authority Refunding Revenue Bonds, 2003 with an effective interest rate of 3.0111% to refund the 1993 bond issue. Water revenues are used as security for these bonds.

The bonds were issued at various rates from 1.4% to 3.5% which mature as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	Total Payment
2010	\$45,000	\$4,110	\$49,110
2011	\$75,000	\$2,625	\$77,625
Totals	\$120,000	\$6,735	\$126,735

Issuance costs of \$11,930 were paid at the time these revenue bonds were issued. These costs were capitalized and are being amortized over the life of the revenue bonds, 96 months, using the straight-line method. Amortization expense was \$1,491 in 2009 and \$1,492 in 2008.

The bonds were issued at a discount of \$5,274, which is being amortized over the life of the bonds, 96 months, using the straight-line method. Amortization expense was \$659 in 2009 and \$659 in 2008.

A bond reserve account of \$36,500 is required to be maintained for the life of the bonds. This amount plus interest earned is in a certificate of deposit at Central National Bank.

NOTE 8 - NOTE PAYABLE

In September 2003 the District started construction on a Filtration Plant with money received from the Kansas Water Supply Loan Fund administered by the Kansas Department of Health and Environment. Construction was completed in September 2004. The loan fees totaled \$4,800, and are being amortized over the life of the loan, 21 years, using the straight-line method. The

amortization expense was \$229 in 2009 and \$228 in 2008. A reserve account is held by the State in the amount of \$38,397. The loan is secured by water revenue.

The repayment schedule for this loan is as follows.

The District is in compliance with the bond issue and state loan covenants.

Geary County, Kansas December 31, 2009

NOTE 11 - LITIGATION

There were no legal actions involving the Geary County Rural Water District No. 4 as of December 31, 2009.

NOTE 12 - RISK MANAGEMENT

Geary County Rural Water District No. 4 is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. To insure against risk of these types of losses, the District has purchased commercial insurance coverage from EMC Companies through Anderson Peck Agency Inc. in Topeka, Kansas. Settled claims resulting from these risks have not exceeded commercial coverage in the past three fiscal years.

NOTE 13 - RELATED PARTIES

All the members of the board of directors are water district customers. The only material transactions were water purchases consummated on the same terms as all other water customers.
